

Meet Susan Berg, Ph.D.

Call her a transition expert. An award-winning international speaker, facilitator, and now author of the book *Choose on Purpose for Twentysomethings*, **Susan Berg** brings real world experience and solutions to the transition issues facing people today. The same career-long focus on mastering change that has won praise from Fortune 500 giants and renowned humanitarian non-profits alike, is now helping to guide people in varied life settings through the potential minefield of major business and life transitions.

Berg earned her Ph.D. in Adult Education and Development from the University of California, Los Angeles, and a Masters degree in International Studies from Northwestern University. Initially an educator and school administrator in California and Texas, she honed her focus on designing strategic change projects, and facilitating leadership and strategic vision programs. Those skills transferred perfectly to her more than ten years at Unisys Corporation, where she was awarded the prestigious Chairman's Innovation Award for creativity in program development.

Susan Berg is Managing Partner and Founder of Compass Associates, a results-based consulting firm specializing in making projects happen in the face of change, disputes, "un-clarity", and confusion. From corporate CEO's to college grads, her unique blend of discipline, consistency and inspired creativity has proven to be indispensable in these chaotic times.

Her book, *Choose On Purpose for Twentysomethings: Finding work you love, places to grow, people who care* gives twentysomethings a direct, uncomplicated way to launch their lives and their careers. Using a friendly, coffee shop chat approach, it helps readers get off the computer and into the wider world by emphasizing relationships and a knowledge base that supports life-shaping choices. Berg draws on her corporate change management experience to help people through all kinds of transitions, and new versions of *Choose on Purpose* are on the horizon for business, resilience and a variety of life stages.
